An ideal application would meet all eight "best" criteria.
- (1) **BUILDING HEIGHT:**
 - (a) **BETTER:** Taller buildings are located away from the edges of parcels to minimize adverse impacts on adjoining land.
 - (b) **BEST:** Buildings are similar in height to existing buildings that will remain on the site and to buildings on adjoining parcels.
 - (2) **OFF-STREET PARKING:**
 - (a) **BETTER:** The impacts of off-street parking are minimized through the use of understructure parking or the construction of freestanding parking garages that are shielded from public view by liner buildings that contain habitable uses.
 - (b) **BEST:** The impacts of off-street parking are minimized through valet parking, shared parking lots for peak parking loads, convenient public transit, and/or high-quality bicycle and pedestrian facilities.
 - (3) **OPEN SPACES:**
 - (a) **BETTER:** Open spaces meet current requirements with minimal departures.
 - (b) **BEST:** Open spaces are sited and designed to provide maximum visual appeal to surrounding properties; landscaping blocks undesirable views of parking and service facilities.
 - (4) **RECREATION:**
 - (a) **BETTER:** The development will provide generous on-site recreational opportunities, or proximity and connection to ample off-site recreational opportunities such as boat dockage, tennis courts, golf courses, or nature trails.
 - (b) **BEST:** The development will provide guests with direct legal access to the beach or bay.
 - (5) **STORMWATER:**
 - (a) **BETTER:** Stormwater runoff is appropriately detained and treated in above-ground basins that serve additional active functions.
 - (b) **BEST:** Stormwater runoff is appropriately detained and treated in subsurface facilities.

- (6) SUFFICIENCY OF LAND AREA:
 - (a) BETTER: The site accommodates the scale of the proposed project and minimizes adverse impacts to adjacent parcels and surrounding area through sensitive siting, building design, and landscaping.
 - (b) BEST: The site is of sufficient size to accommodate the scale of the proposed project while avoiding adverse impacts to adjacent parcels and surrounding area.
 - (7) WATER SETBACKS:
 - (a) BETTER: The required gulf and pass waterfront yards are met without departures.
 - (b) BEST: The required gulf and pass waterfront yards are exceeded.
 - (8) ZONING COMPLIANCE:
 - (a) BETTER: Meets current zoning constraints with minimal departures.
 - (b) BEST: Meets current zoning constraints without departures.
- (C) ~~Review. The standards of the underlying zoning district in which the subject property is located shall remain in effect. In order to grant approval or approval with conditions, the town must find by competent substantial evidence that the project is in the best interest of the health, safety and welfare of the town and its citizens and does not adversely impact or affect the public interest. Projects shall be reviewed, evaluated, ranked, approved, approved with conditions, or disapproved in accordance with the following criteria, as well as the criteria set forth in section (D) below. The criteria listed below are in prioritized order with the most important listed first. Projects that require a departure from the standards of the zoning code, or do not meet zoning constraints, must demonstrate by clear and convincing evidence that the projects are so beneficial to the town as to warrant the granting of the requested departure or allowing the zoning constraints to be exceeded. In reviewing a proposed project, the town shall consider:~~
- (1) ~~Existing developments. Whether the project:~~
 - (a) ~~Meets current zoning constraints and would not need departures.~~
 - (b) ~~Meets current zoning constraints and would need departures for the additional units.~~
 - (c) ~~Does not meet current zoning constraints and would not need further departures.~~
 - (d) ~~Does not meet current zoning constraints and would need further departures.~~
 - (2) ~~Sufficiency of the land area. The site on which the project is to be located must be of sufficient size to accommodate the mass and scale of the proposed project, as well as to protect against adverse impacts to the adjacent parcels and surrounding area. Two or more contiguous existing tourism developments or tourism zoned properties that are merged shall be considered one lot for this consideration, in which case the underlying zoning district of each respective lot shall govern.~~
 - (3) ~~Number of units.~~
 - (a) ~~Proposed projects that appropriately utilize a greater number of available tourism units.~~
 - (b) ~~Proposed projects that appropriately result in a greater total number of tourism units.~~
 - (4) ~~Open space. Whether the proposed project preserves a larger percentage of open space than required by this Zoning Code.~~

- ~~(5) *Off street parking.* Whether the impacts of off-street parking is minimized through the maximization of understructure parking, the utilization of parking waivers, and the strict application of the minimum parking calculations as per section 158.128 of this Code.~~
 - ~~(6) *Setbacks.* Whether the proposed project maintains or surpasses the required gulf and pass waterfront yards.~~
 - ~~(7) *Building height.* With no order of preference, the proposed structures':~~
 - ~~(a) Distance from structures on adjacent properties.~~
 - ~~(b) Distance from setback lines.~~
 - ~~(c) Distance from rights-of-way.~~
 - ~~(d) Relationship to the height of other onsite structures.~~
 - ~~(e) Relationship to the height of off-site structures.~~
 - ~~(8) *Traffic circulation and impacts.*~~
 - ~~(9) *Minimization of potable water usage* (e.g., utilization of alternative water sources).~~
 - ~~(10) *Minimization of stormwater runoff.*~~
- ~~(D) *Site considerations and compatibility review criteria.* Projects shall be reviewed according to the criteria listed below which are in prioritized order with the most important listed first:~~
- ~~(1) *Character compatibility.* Projects shall be compatible with and not detrimental to the character, including the use, of the area taking into consideration the adjacent property's potential development under the zoning code.~~
 - ~~(2) *Consolidation of properties.* The potential positive impacts that are likely to occur from the consolidation of smaller development sites resulting in a larger development site.~~
 - ~~(3) *Quality of development.*~~
 - ~~(a) The proposed architecture enhances both the site and the surroundings.~~
 - ~~(b) The proposed landscaping and tree preservation and plantings.~~
 - ~~(c) The proposed on-site amenities and recreational opportunities serving the development.~~
 - ~~(4) *Quality of life.*~~
 - ~~(a) Proximity and connection to beach or bay access.~~
 - ~~(b) Proximity and connection to existing commercial.~~
 - ~~(c) Proximity and connection to existing offsite recreational opportunities.~~
 - ~~(d) Pedestrian walkability and bicycle accessibility.~~
- ~~(E) *Initial application review period.* Since the town cannot anticipate whether requests for the utilization of the tourism units will exceed the 250 units available, upon the adoption of the ordinance enacting this section, a minimum initial 60-day application period shall be implemented to allow for the submission of all completed applications. At any time prior to a recommendation to the town commission on these initial applications, the planning and zoning board may, by majority vote, extend the initial 60-day application period as well as the review period if the board finds that to do so is necessary and proper to insure the orderly and fair evaluation of projects seeking to utilize some or all of the tourism units to be allocated hereunder. Upon expiration of the initial application period, the planning zoning and building director, or designee, shall review, rank and prioritize all applications, and~~

~~forward the applications, together with recommendations, to the planning and zoning board.~~

- ~~(1) These applications shall be considered as a group before the planning and zoning board. The planning and zoning board shall provide recommendations to the town commission as to which, if any, projects meet the criteria for approval. If the total number of tourism units requested for projects that meet the criteria as determined by the planning and zoning board exceeds 250 units, then the planning and zoning board shall rank these projects from highest to lowest as part of its recommendation to the town commission.~~
 - ~~(2) These applications forwarded by the planning and zoning board shall be considered as a group by the town commission. The town commission shall determine which projects, if any, meet the criteria of this section. If the total number of tourism units in projects that meet the criteria for approval exceeds 250, then the town commission shall rank those projects from highest to lowest. Projects shall be approved and units shall be committed by the town in accordance with this section starting with the project ranked highest.~~
 - ~~(3) If after the allocation of tourism units to the ranked project(s), there are units remaining but the next ranked project requires more units than are available, then the next ranked project shall be given the opportunity during the allocation determination of the town commission to make a minor modification to the number of units requested in order to comply with the number of units available. There shall be a finding that the proposed minor modification does not adversely impact the rankings of the pending applications in order for the units to be allocated.~~
 - ~~(4) If the next ranked project is unable to make acceptable minor modifications as described above, then the applicant(s) of the remaining ranked projects shall be given the opportunity to amend their application(s) and the remaining project(s) shall be ranked based on the criteria contained within subsections (C) and (D). Amended application(s) shall be submitted within 60 days from the initial allocation determination of the town commission. The projects approved and allocated units may proceed through the remaining approval processes.~~
 - ~~(5) Ranked projects, for which the requested number of units cannot be committed, shall be kept under consideration until the site plan application period as described in subsection (G) for the committed units has lapsed. If there are available units as a result of subsection (G), these project(s) will be considered for the ranking, allocation, and assignment of any unused units along with any other applications that may be submitted and reviewed during the interim utilizing the process and procedure for ranking and allocation outlined above.~~
- ~~(F) After the initial application review period. If there are units that remain available for distribution, all applications will be reviewed as they are completed in accordance with the provisions of this Code and the criteria and standards set forth above. The town shall provide no guarantees or assurances of approval and no development permits or land uses based on the utilization of the 250 tourism units shall be granted until the review and determination of the initial applications is completed by the town.~~

- ~~(F) (G) Approval process. Application and review process. Applications for eligibility and distribution of the 250 additional tourism units shall follow the procedures for and be approved, approved with conditions, or denied as an outline development plan (ODP) that shall include a binding concept plan. The necessary units to implement the binding concept plan shall be committed by the town upon the plan's approval, contingent upon the requirements of this Code. The additional tourism units requested in the final site plan or binding concept plan shall be committed by the Town upon the plan's approval, subject to the conditions below:~~

Failure to submit a complete application within six months, or submitting a complete site plan application within six months that is denied after all appeals are exhausted, shall result in the loss of the tourism units committed to the project, and the units shall become available for other proposed developments within the Town.~~
 - ~~(2) Final site plan approval for the construction of additional tourism units shall expire 24 months after the date of approval if a complete application for building permit has not been submitted to the Town and a building permit issued for the construction of all buildings that include tourism units. Allocated tourism units associated with an expired final site plan or an expired building permit shall become available for other proposed developments within the Town.~~
 - ~~(3) (1) Concurrent review and approval of an ODP and final site plan is allowed; the final site plan replaces the requirement for a binding concept plan.~~
 - ~~(4) (2) Concurrent review and approval of applications for involuntary or voluntary rebuild, in accordance with sections 158.139 and 158.140, and applications for up to 250 tourism units, under this section, is allowed and shall be by ODP application in conjunction with a final site plan. The final site plan replaces the requirement for a binding concept plan.
 - ~~(a) However, in such case the ODP and final site plan review applications must also be reviewed and approved concurrently.~~
 - ~~(b) The final site plan shall replace the need for a binding concept plan as described in subsection (F).~~~~
- ~~(H) Site plan expiration. - ~~(K) Tourism units that are approved by final site plan, but not approved as part of construction plans, shall require a site plan amendment through public hearing.~~

~~Units not constructed shall be removed from the allowable density of the subject parcel and become available for other proposed developments within the town. Units constructed but subsequently removed shall revert to the town for future allocation.~~

~~(L) Conflicting Code provisions.
